PENNY HUTNER INTERIOR DESIGN

Penny Hutner is a maverick designer and a successful businesswoman. She has completed major residential and commercial projects in the Hamptons, Manhattan, Long Island, Colorado and Florida.

Interior design has been her passion for most of her life and she's not only a seasoned designer but also a walking encyclopedia of design resources. There's no formulaic approach. Each project is a unique search for the most thrilling and often unexpected design that has as much to do with the aesthetic and experiential qualities of colors, forms, light, materials and textures as with space planning, ergonomics and technology.

But in the end it's all about the client to whom she considers herself a trusted advisor.
